### Tips for reporting this item:

- Note that data items will vary for each review and can include a combination of qualitative or quantitative data depending on the review focus
- Describe any items that involve interpretation
- Include final versions of the charting form either in an appendix or supplementary file with clear definitions of each item

### Example:

*“We abstracted data on article characteristics (e.g., country of origin, funder), engagement characteristics and contextual factors (e.g., type of knowledge user, country income level, type of engagement activity, frequency and intensity of engagement, use of a framework to inform the intervention), barriers and facilitators to engagement, and results of any formal assessment of engagement (e.g., attitudes, beliefs, knowledge, benefits, unintended consequences).”*
